

Client: German Federal Ministry for the Environment,
Nature Conservation and Nuclear Safety

Duration: April 2018 – June 2019

Location: Germany

Bundesministerium
für Umwelt, Naturschutz
und nukleare Sicherheit

The assignment aims to inform public policy processes through research papers on issues related to mainstreaming climate into the EU budget and capital markets and moderated expert discussions organized on the European level in Brussels. In this Ecofys lead consortium, KPC is in charge of the work package related to “Sustainable Finance”, aiming at aligning financial markets with climate targets and the Sustainable Development Goals (SDGs). Apart from the elaboration of a policy paper, KPC also supports its client through:

- ad-hoc work, including the organization of a dedicated side event at a renowned conference (I4C, Frankfurt, May 2018)
- an assessment of the legislative proposals by the European Commission regarding a framework for sustainable finance
- ESG integration and disclosure and benchmarks as issued in May 2018
- participation in expert discussion on the Sustainability Taxonomy.
