

Client: Federal Ministry for Agriculture, Forestry,
Environment and Water Management

Duration: 1993 – ongoing

Location: Austria

Through its environmental support programme, the federal government has provided funding for investments in environmental protection and the fight against climate change since 1993. Financial support is granted for measures with a positive environmental impact, such as the use of renewable energy, energy conservation measures, mobility measures as well as projects aimed at avoiding or reducing air pollution, noise or hazardous waste.

KPC services the entire support process, acting as an interface between clients, as the providers of funds, and applicants for support. The range of services includes:

- Examination of applications for support in terms of form and substance
- Determination of the amount of support to be granted
- Assistance during decision-making, funding recommendations, services for decision-making bodies
- Drafting contracts and letters of refusal
- Settlement of accounts and management of the disbursement procedure
- Monitoring and reporting
