

Client: Altstoff Recycling Austria AG (ARA)

Duration: 2005 – 2014

Location: Austria

ARA 
Altstoff Recycling Austria

Waste Prevention is one of the key goals of the Austrian waste management. Therefore a percentage of money is donated to Waste-prevention-projects, which range from waste prevention in industrial enterprises (e.g. reduction of residues during manufacturing process), change to paperless offices up to awareness-rising- Projects in schools.

All Applications need to be checked to conformity to the guidelines, costs must be estimated to proportionality, a rate of funding must be calculated and – most important – the value of waste prevention is assessed.

Type of services provided:

- Preparation of guidelines
- Verification of Applications
- Invoice-Management
- Communication with client
