

Management of the Federal Support Scheme for Sustainable Mobility (klimaaktiv mobil)

Client: Federal Ministry for Agriculture, Forestry,
Environment and Water Management

Duration: 2006 – ongoing

Location: Austria

In 2007, the Ministry of Environment launched the klimaaktiv mobil initiative for active climate protection in the transport sector. This initiative comprises advisory services, awareness-raising measures and funding schemes aimed at avoiding and reducing transport-related emissions of climate-changing substances, such as nitric oxide and particulate matter. Funding is made available for projects promoting the use of public transport, cycling and walking or the introduction of mobility services. KPC manages this funding instrument on behalf of the Ministry of Environment.

KPC services the entire support process, acting as an interface between clients, as the providers of funds, and applicants for support. The range of services includes:

- Examination of applications for support in terms of form and substance
- Determination of the amount of support to be granted
- Assistance during decision-making, funding recommendations, services for decision-making bodies
- Drafting contracts and letters of refusal
- Settlement of accounts and management of the disbursement procedure
- Monitoring and reporting
